NEW FOR 2025 // CODE_65315A

SQL 2025 INTRO

FOUNDATION BOOTCAMP

3 DAYS
BEGINNER LEVEL

DEDICATED BOOTCAMP MODE

Shift from passive learning to active mastery. In addition to the ILT mode, the new bootcamp track now allows you to engage with complex hands-on labs for the full 3-day duration, with an instructor. Deep-dive into DBA tasks, T-SQL and AI features in SQL Server 2025.

CORE FUNDAMENTALS

SQL Server 2025 Core
Understand the architecture of instances, databases, and system-versioned tables in the latest Microsoft data platform release.

Automation & PowerShell
Learn to automate routine administrative tasks and backup operations using PowerShell cmdlets and the SqlServer module.

THE TOOLING

SSMS 22 Navigation
Master the industry-standard management tool, SQL Server Management Studio 22, to connect to instances and manage objects efficiently.

Vector Databases
Gain early exposure to SQL Server 2025's vector database capabilities, essential for future AI-driven application workloads.

Lab Environment
LOCAL INSTANCES + SQL 2025

Audience Focus
IT PROS & DEVS
